**DAVLIN PHILANTHROPIC FUND CONTINUES SUSTAINABLE GIVING  
WITH 2014 DONATIONS TO 30 U.S. CHARITIES**

WAYLAND, MA (June 20, 2014) -- The Davlin Philanthropic Fund, the first mutual fund to allow investors to direct charitable contributions from their advisory fees, has announced its 2014 charitable awards ranging from \$100.00 to \$11,900.00 to thirty charities. This marks the sixth successful year of Davlin fund donations.

The Davlin Philanthropic Fund is effective because it works the way we live. Since the donations are part of the advisory fees, investors no longer have to decide between saving for retirement or giving to charity. With the Davlin Philanthropic Fund, the more you save, the more you give. And with the Donation Matching Program donating an additional \$6.00 plus for every dollar an investor donates, investors are incentivized more than ever to save and, thus, give.

For investor, Craig Kaisand, this means extra giving to his favorite charity, Hands Together for Haiti. "I invested \$50,000 in the fund in 2008 and have added to it over the years. The first year Hands Together for Haiti received a donation of \$700. The second and third year, Hands Together received a \$2,000 donation in each year. The fourth year, they received \$3,500 and the fifth year \$4,600. This year, they received a check for \$2,700. What I love most is that Hands Together has received a total of \$15,500.00 from money that I expected to pay to the Portfolio Manager, plus the benefit from the generous Donation Matching Program. It is simple, pain free, and that sort of money can really feed, clothe and educate a lot of Haitian children - and that makes me happy."

Bill Davlin, president of the Davlin Philanthropic Fund, said, "By creating a mutual fund where investors own the assets and get all net returns, and their favorite charities get a large portion of the advisory fees, we have created a tool that can offer the average person the opportunity to make a significant difference. Since each account also provides the option for a death benefit, our fund offers many of the advantages of a planned giving program."

"This is what we like to refer to as sustainable giving. Over the long term, we hope to fundamentally change the landscape of philanthropy," he said. "As we can continue to grow, the world will get a whole new group of philanthropic supporters."
